General Terms and Conditions of Sale in the U.S.

Price: The price for any product (hereinafter "Product") or service shall be the price stated in the Bio-Rad Laboratories, Inc. (hereinafter 'Bio-Rad') quotation. Bio-Rad's quotations are valid for ninety (90) days unless otherwise stated in the quotation. Prices stated are exclusive of all taxes, fees, licenses, duties or levies and, unless otherwise stated in the quotation, transportation charges, freight and insurance. All pricing and special offers are subject to approval by Bio-Rad's National Sales Office and are not binding until this review is complete and approval has been given. Discounts only apply to the Products and Services that are ordered under the same purchase order number or placed at one time. Educational pricing is contingent upon receipt by Bio-Rad of a signed educational voucher submitted with the purchase order. The attached quotation supersedes/cancels all previous quotations on the Products and Services stated in the quotation and the above price quotation number must be referenced on your purchase order.

Shipping and Handling: Unless otherwise requested, all orders will ship either next day or 3 day service as appropriate on a carrier selected by Bio-Rad. Unless specifically quoted, shipping and handling charges will be prepaid and added to the invoice (PPD & Add). Wet Ice, Hazardous and Dry Ice packaging fees are prepaid and added to all invoices as appropriate. Shipping for this quote is FOB Destination.

Warranty: All Bio-Rad products are guaranteed to meet the specifications listed in our catalog at the time of shipment. If you have questions about specifications or performance, call the Bio-Rad Technical Support department at 1-800-4BIORAD (1-800-424-6723). Should a Bio-Rad branded product fail to meet specifications during its warranty period, it shall be repaired or replaced at Bio-Rad discretion. Warranty periods are listed on quotations for specific products; however, instruments generally receive 1 year of warranty coverage from the date of shipment or installation. For instruments installed by Bio-Rad, The warranty start date is the date of installation or 2 months post invoice, whichever is shorter. All other warranties start on the date of invoice. Instrument warranties do not include consumable parts, such as lamps or platinum wire. Bio-Rad's warranty covers products used in BSL1 and BSL2 laboratories. Products used in BSL3 or BSL4 laboratories may be covered on a case-by-case basis after review of product use and decontamination procedures by Bio-Rad's Technical Support and Service Management. Repairs have different warranty periods. Chemicals and other consumables are warranted through their expiration date, or for 1 year from shipment if no expiration date is indicated. Non-Bio-Rad branded products, such as computer peripherals, are covered by the original equipment manufacturer's warranty. Warranties are not transferable from the original purchaser. Warranty coverage may be void if the product is moved outside of the country where the product was originally purchased. An optional extended warranty program is available at additional cost, as is warranty coverage outside of the country where originally purchased. For more information, call 1-877-286-7231) for Service Sales.

THIS WARRANTY IS NOT TRANSFERABLE FROM THE ORIGINAL PURCHASER TO A SUBSEQUENT OWNER. FURTHER, BIO-RAD IS NOT LIABLE IN CASES OF DELIBERATE, NEGLIGENT OR ACCIDENTAL MISUSE OF ANY BIO-RAD PRODUCT, USE WITH INAPPROPRIATE REAGENTS OR CONSUMABLES, DAMAGE CAUSED BY DISASTER, REPAIR OR MODIFICATIONS DONE BY ANYONE OTHER THAN BIO-RAD.

In addition, buyer must promptly return a rejected Product to Bio-Rad, prepaid via Bio-Rad's preferred carrier, accompanied by a valid return authorization number obtained from Bio-Rad. For any valid claim timely made, Bio-Rad, at its option, may repair Product or replace Product with an identical or substantially similar Product. Customer is responsible for unloading and providing standard receiving facilities for large and/or heavy shipments. Special unloading or delivery can be arranged provided VWR International is notified at the time of order placement. Please note that additional charges may apply to the above. For such arrangements please contact VWR International for a quotation.

It is the customer's responsibility to inspect the shipment upon receipt. If any external damage is noticed, the customer must accept the shipment only after the driver has noted the damage on the customer's delivery receipt and requested an inspection by the carrier. If the shipment arrives with internal/concealed damage, the customer must contact VWR within 24 hours to initiate the right to claim for "concealed damage". VWR reserves the right to repair a damaged product, where applicable, before replacement or credit is determined.

VWR's quote does not include the installation of the aforementioned services.

Items prefixed with "MISC-" are subject to regulatory approval once VWR International receives acceptance from the customer. They are special order, and as such may not be returnable. Please allow 6-8 weeks delivery from the time of your first order or acceptance of this quotation.
